

W

ith VIP clients ranging from industry leaders to members of parliament, Bespoked by Ian Chang keeps them

impressed by perfecting the fine art of tailoring through years of experience.

Right down to the measurement, cutting, fitting and finishing of the suit, be prepared to experience a personal service unlike any other, where customers will be treated like friends in a comfortable, homely environment, where they can indulge in idle chat, cigars and perhaps, a cup of coffee.

Adding to the unique appeal of Bespoked is its skilled tailors, who ask clients vital questions such as, “what, when and where the occasion is”, “how would you like to compliment your wife’s dress?”, and other relevant questions that aim to give your suit that special personal touch.

Time is a valuable entity and Bespoked

tailors are aware of that. In case of a time crunch, Bespoked is willing to serve clients in the privacy of their own home or location of choice, with an appointment made three days ahead.

Clients can choose to make their suit from an extensive range of high quality fabrics mostly from Britain and Italy. These include well-known brands such as Holland & Sherry, Thomas Fisher, J & J, Minnis, Dormeuil, Scabal, Cerruti 1881, Zegna, Marzoni, Ethomas, Canonico and Lessona.

Besides personal tailoring, Bespoked also provides corporate tailoring services as well as the supply of uniforms to the staff of many famous companies including Toyota, Panasonic, Nirvana, and F1 Lotus.

Whatever your tailoring need is, the people at Bespoked will ensure that your experience with them is a worthwhile one. ■
